Loominium

Loom Crafts new range for outdoor furniture, this range is manufactured using aluminium tubes and profiles powder coated in various color choices, and 100% solution dyed acrylic fabric water repellent for the cushions seats and back.

Loom Crafts presents casual outdoor furniture that caters to the style conscious yet discriminating customers. Through the merging of contemporary manufacturing technologies, weather resistant materials have been used in this new outdoor furniture range.

The idea of this furniture comes from the wrought iron outdoor furniture, Loom Crafts has crafted this outdoor furniture in aluminium with special Polyester powder coating.

LOOMTEX ACRYLIC FABRIC FOR SEAT AND BACK LOOSE CUSHIONS:

For the seat and the back loose cushions we use 100% solution dyed acrylic fabrics. These fabrics are water repellent, will not fade in the sun or outdoor conditions for years, LoomTex acrylic outdoor fabrics are warranted for 5 years against fading.

LoomTex Acrylic Fabric – the miracle solution dyeing technique!

All LoomTex fabrics are manufactured using 100% solution dyed acrylic fiber. Solution dyeing is a unique process in which the pigment or dye is added along with UV stabilizers, while the fabric is still in viscous form. This characteristic locks the color in so that it cannot be faded by the sun or even bleached out with chlorine.

In addition the UV stabilizers also protect the fabric from 'dry rotting' in the sun, that to say, when a fabric exposed to the sun loses strength to the point it can literally "turn to dust". Solution-dyed acrylic is a natural at resisting stains and to further enhance this feature, LoomTex has added stain release finishes making it even more stain free.

A deep seating comfortable outdoor dining set, complete framework is in aluminium Polyester powder coated, seat and back cushions are in 100% solution dyed acrylic fabric with quick dry PU foam inside. These cushions are water repellent and will not fade for years. Various choice of frame and fabric colors available.
