JUMBO SINGLE-VOLA UMBRELLA

Sizes available from 8' up to 12' Round & Square

Our Jumbo Umbrellas are available in our Patented Singlevola Wind resistant design.

JUMBO MULTI-VOLA UMBRELLA

Our Jumbo Umbrellas are also available in our Patented Multivola Wind resistant design. These umbrellas are specially designed for places with high wind pressures which let them stand strong due to its unique Multi Layered Design.

Sizes available from 8' up to 12' Round & Square

THE JUMBO CENTER-POLE MECHANISM

Entire membrane fabric is a singular & replaceable piece comprised of PVC coated polyester fabric or 100% polyester fabric.

Loom Crafts 'Jumbo' structural frame work and circular ventilation system opening covered by top plate preventing rain and weather penetration.

Frame comprised of extruded aluminum and powder coated. Standard in white custom colors are available

Original Loom Crafts stainless steel plate ensuring each units originality.

Bottom plate to be fixed to the floor

Swift tow-stage tensioning procedure, tensioning latch already engaged & locked, secondary after-tensioning latch in transit yet. To refold the structure reverse the order of the procedure

Picture showing the structure in its readily unfolded & tensioned configuration with the latches properly locked except that the master key must be pulled off yet to prevent the parasol from being handled by unauthorized hands.

Heavy stand alone base available with all the umbrellas, different weight and sizes available.

Weight : 90 kgs approx
Size : 24X24 Inch

JUMBO GIANT CENTER-POLE UMBRELLA

Ultra-sized yet none the less foldable Loom Crafts fabric structures offer considerably more than just dependable sheltering from sun, rain, or just chill weather: World-wide, they are unrivalled in their architectural design and their aesthetic visual appearance. Loom Crafts fabric structures are renowned for setting architectural accents

in creating outdoor islands of ease and comfort. In particular it's the variety of different-shape & -size models from the self-reliant Loom Crafts 'Jumbo' production line that is considered worldwide as the most finished and exacting outdoor sheltering culture by market insiders. What are the reasons? - The quite simple answer is: Ever since, Loom Crafts structures have been the most solid, most elegant, and the most long lived ultra-sized "anti-wind" parasols that one can buy for money. They are proudly being "Made in India", now as ever.

Sizes available from 14' up to 24' Round & Square

JUMBO GIANT CENTER-POLE UMBRELLA

Loom Crafts 'Jumbo' umbrellas can be joint together in many configurations with rain water gutters and have been specifically de-signed for this purpose to provide very economical shade systems for the outdoor restaurants, cafes, etc.

JUMBO GIANT CENTER-POLE UMBRELLA

Now you can cover your restaurants with large size umbrellas, instead of having many small umbrellas, you can have one or more large umbrellas to cover the entire area, this will avoid too many umbrella poles and base in the area, all the large umbrellas can be joint together with the rain water gutters.

JUMBO GIANT CENTER-POLE UMBRELLA

In the beginning, there wasn't but the vision of an ultra-sized yet ready-to-erect foldable fabric structure that was to become perfect in every respect. Its aesthetic architecture, its modular producibility, and its resulting value for-the-money price level had been in the limelight. Eventually, the evolutionary realization of that very vision ended up with the variety of models, sizes, editions, and options offered from the Loom Crafts 'Jumbo' line nowadays.

A unique shade umbrella developed with the most convenient and easy opening and closing system, ever to be found in any other umbrella in the world.
